In the first all Greek event of the semester, more than two hundred Greeks watched the Warriors defeat the Phoenix Suns.

Upcoming Events

Greek Warriors Night

Watching the Warriors win 124-112.

We all know how much fun attending sports games with friends is, so why not make a Greek night out of

it? For the fourth year in a row, more than two hundred Cal Greeks attended the Greek Warriors night February 4th. For only twenty dollars, attendees got a ticket to the game as well as bus transportation to Oracle Arena.

Members of the Greek community got the opportunity to watch the Warriors play a great game against the Phoenix Suns, and even saw themselves up on the big screen. Events like these help promote unity between the different Greek Councils and provide us with an opportunity to meet members of other chapters. Keep an eye out for other such events, as all four councils plan on hosting more events like this.

CalGreeks in Marin

Executive officers from all four councils spent the weekend in Marin, networking and setting goals.

This past weekend saw executive officers from all four councils—IFC, PHC, MCGC, and NPHC—in Marin learning about leadership, developing relationships with officers from other councils, and setting goals for the upcoming semester. Under the guidance of several CalGreeks advisors, council officers worked to determine ways to strengthen their respective councils, promote Greek unity, and be effective

leaders within the Greek community. The IFC executive team set several goals for this upcoming semester including:

- 1) Passing a revised social code that better reflects changes in our community.
- 2) Redesigning the Calgreeks.com website so that is a useful resource for chapters.
- 3) Strengthening the relationship between chapter presidents.

Every member left the retreat with a better sense of purpose and a new vision for their council for the year.
